

## HEALTHY LAKES & RIVERS PARTICIPATION PLEDGE

I/we **Mr. and Mrs. Lake-Lover** pledge to participate in Wisconsin's Healthy Lakes & Rivers initiative. More property owners implementing the suggested best practices over time may eventually add up to significant success and healthier waters for current and future generations.

I/We pledge to work with DNR Lake Protection Grant sponsor **Healthy Lakes & Rivers Association** to install the following best practice(s) to restore fish and wildlife lakeshore habitat and/or prevent storm water runoff and erosion. (check practices to be installed on the property)

- Fish Sticks
- 350 square feet native plantings
- Diversion practice(s)
- Infiltration practice(s)
- Rain garden

I/We understand that by signing this Pledge I/we am/are indicating a strong interest to follow through with a Healthy Lakes & Rivers project on my/our property, but this is not a legal requirement.

Describe Personal Participation Goal (optional):
